

# HPV

## *Clinical Pearls*

1

### **Educate:**

Healthcare Providers,  
Parents/Carers and  
end-users.

2

### **Vaccinate :**

\*School age children  
\* <40 year olds with specific  
conditions

3

### **Screen:**

Routine check-ups: 3/5  
yearly

4

### **Treat:**

Persistent HPV & HPV -related  
cell changes

5

### **Think Multifocal disease:**

Screen immunocompromised cohort  
& Refer for **Vulvovaginoscopy** +/-  
**Anoscopy** for this cohort + persistent  
HPV disease.
