MASTERCLASS IN VULVOVAGINAL DISEASE

A GLOBAL APPROACH

DECEMBER 3, 2026
DOHA, QATAR

COURSE 01: WET MOUNT MICROSCOPY

OPTIONAL

ADDITIONAL FEE

FACULTY:
PEDRO VIEIRA-BAPTISTA
HANS VERSTRAELEN

STUDENT LIMIT: 20
DURATION: 180 MIN
09:00H - 12:00H

In this optional course the participants will be able to improve their knowledge on the **use of wet mount microscopy**.

- Basic principles of microscopy
- Advantages of the use of phase contrast microscopy vs. bright light microscopy
- Indications for the use of wet mount microscopy
- Advantages and pitfalls
- Performance and limitations
- How to collect and prepare a sample
- Systematization of the technique for reading and classifying the slides
- Evaluation of the lactobacillary grades and background microbiota
- Inflammation and atrophy
- Diagnosis of candidiasis, bacterial vaginosis, trichomoniasis, desquamative inflammatory vaginitis, cytolytic vaginosis, leptothrix
- Discussion of cases, based on real clinical histories and microphotographs

The course will be based on the **presentation of an extensive number of microphotographs**, representative of the discussed conditions.

A phase **contrast microscope** connected to a computer will be used, **live practice** with slides previously collected by the faculty and participants will be performed.

MASTERCLASS IN VULVOVAGINAL DISEASE

A GLOBAL APPROACH

DECEMBER 3, 2026
DOHA, QATAR

COURSE 02: MASTERING VULVOVAGINAL SURGERY.

OPTIONAL

ADDITIONAL FEE

FACULTY:
HOPE HAEFNER; TANIA DAY,
MICHAEL FITZSIMMONS, MARIO PRETT

STUDENT LIMIT: 20
DURATION: 180 MIN
14:00H - 17:00H

Mastering vulvovaginal surgery: from **common vulvar procedures to advanced reconstructive techniques**. This will be a practical, hands-on optional course.

The participants will be able to learn and practice:

- Different techniques of performing vulvar biopsies (e.g. punch, shaving)
- Suturing and haemostasis- tips and tricks
- Ellipsoidal excision
- V-Y flaps
- A-T flaps
- O-Z flaps
- Rhomboid flaps
- Rotation flaps

In the end, the participants will be able to **perform biopsies, excise lesions, and/or reconstruction**, minimizing anatomical distortion without sacrificing the outcomes.

MASTERCLASS IN VULVOVAGINAL DISEASE

A GLOBAL APPROACH

DECEMBER 4, 2026
DOHA, QATAR

SESSION 1

08.00 - 08.20 | Inaugural speech | **Brigadier (Eng. Air) Abdulrahman A. Alabdulmalik, Medical Services Commander, Qatar Armed Forces.**

08.20 - 08.40 | Anatomy, surgical landmarks, and histology of the vulva and vagina | **Tania Day**

08.40 - 09.00 | How to take a clinical history in patients with vulvovaginal diseases | **Mario Preti**

09.00 - 09.20 | How to adequately examine the vulva and vagina | **Hans Verstraelen**

09.20 - 09.40 | Q&A
09.40 - 10.00 | Coffee Break

SESSION 2

10.00 - 10.20 | The ISSVD classifications of vulvar dermatoses | **Mario Preti**

10.20 - 10.40 | Vulvar diseases and systemic diseases | **Fiona Lewis**

10.40 - 11.00 | When and how to perform a vulvar biopsy | **Hope Haefner**

11.00 - 11.20 | Managing the use of topical medication | **Fiona Lewis**

11.20 - 11.40 | Q&A

SESSION 3

11.40 - 12.00 | Lichen sclerosus | **Tania Day**

12.00 - 12.20 | Lichen planus | **Hope Haefner**

12.20 - 12.40 | Lichen simplex chronicus and other dermatoses | **Fiona Lewis**

12.40 - 13.00 | Q&A
13.00 - 14.00 | Lunch

SESSION 4

14.00 - 14.30 | Vulvar ulcers – diagnosis and management | **Fiona Lewis**

14.30 - 14.50 | Vulvar HPV: Warts/ LSIL | **Tania Day**

14.50 - 15.10 | Vulvar HPV: HSIL And Cancer | **Mario Preti**

15.10 - 15.30 | Q&A
15.30 - 15.50 | Coffee Break

SESSION 5

15.50 - 16.10 | The burden of vulvovaginal diseases in the Middle East and unmet needs | **Abdulkadir Wagley**

16.10 - 16.25 | Etiology(ies), diagnosis, and classification of vulvodynia | **Hope Haefner**

16.25 - 17.00 | Non-surgical treatment of vulvodynia | **Hans Verstraelen**

17.00 - 17.20 | Surgical treatment of vulvodynia | **Hope Haefner**

17.20 - 17.40 | Q&A

MASTERCLASS IN VULVOVAGINAL DISEASE

A GLOBAL APPROACH

DECEMBER 5, 2026
DOHA, QATAR

SESSION 6

Moderator: **Tiago Ferraz**

08.00-08.20 | How Vulvovaginal Disease Education is Relevant in Qatar | **Husam Qush**

08.20 - 08.40 | The diagnosis of vulvovaginitis – the present and the future | **Pedro Vieira-Baptista**

08.40 - 09.00 | Diagnosis And Management of candidiasis | **Tania Day**

09.00 - 09.20 | Diagnosis and management of bacterial vaginosis | **Hans Verstraelen**

09.20 - 09.40 | Diagnosis and management of trichomoniasis | **Pedro Vieira-Baptista**

09.40 - 10.00 | Q&A

10.00 - 10.20 | Coffee Break

SESSION 7

10.20 - 10.40 | Cytolytic vaginosis and other lactobacilli associated conditions | **Pedro Vieira-Baptista**

10.40 - 11.00 | Desquamative Inflammatory Vaginitis | **Hans Verstraelen**

11.00 - 11.20 | The role of probiotics in the management of vaginitis | **Pedro Vieira-Baptista**

11.20 - 11.40 | Q&A

SESSION 8

11.40 - 12.00 | Pigmented lesions of the vulva - **Fiona Lewis**

12.00 - 12.20 | Paget's Disease | **Mario Preti**

12.20 - 12.40 | The pathways for vulvar cancer and the rationale for VIN classification | **Mario Preti**

12.40 - 13.00 | Q&A

13.00 - 14.00 | Lunch

SESSION 9

14.00 - 14.20 | Vulvovaginal problems in children | **Tania Day**

14.20 - 14.40 | Vaginal atrophy: anything new? | **Hope Haefner**

14.40 - 15.00 | The sexual impact of vulvovaginal diseases and how to address it | **Hope Haefner**

15.00 - 15.20 | The G-spot: fact or fiction | **Pedro Vieira-Baptista**

15.20 - 15.40 | Q&A

15.40 - 16.00 | Coffee Break

SESSION 10

16.00 - 16.40 | How do I see the future of vulvovaginal diseases?

- Vaginitis | **Pedro Vieira-Baptista**
- Dermatoses and premalignant disease | **Mario Preti**
- Cosmetic surgery | **Hope Haefner**
- AI | **Hans Verstraelen**

16.40-17.00 | Any role for PRP or fat grafting? | **Mario Preti**

17.00-17.20 | Evidence on the use of LASER and radiofrequency in vulvovaginal diseases | **Tania Day**

17.20-17.40 | Q&A
