*and International Vulvovaginal Disease Update*

XXVI World Congress  
July 18-20, 2022

Trinity College  
Dublin, Ireland

PROGRAM

XXVI  
**WORLD CONGRESS**  
July 18-20, 2022  
Trinity Collge - Dublin, Ireland

## **Learning Objectives for ISSVD World Congress**

At the end of these presentations, the participants will:

Gain new clinical and scientific information on a variety of vulvovaginal conditions.  
Experience a focus on information relevant to improving women's health.

Increase their knowledge of the disease state or unmet need and the emerging strategies for the treatment of vulvar dermatoses.

Improve healthcare professionals' knowledge and ability to provide individualized, evidence-based, and optimum management of conditions that are prevalent in postmenopausal women, such as vulvar and vaginal atrophy.

Gain knowledge on the microbiome of the vagina

Explore some of the controversies that exist in vulvovaginal diseases

Through the academic exchange of research and ideas, enhance the discovery and translation of novel cancer therapies, increase scientific understanding of their mechanisms-of-action as well as the efficacy, safety, and potential clinical applicability.

Improve awareness of appropriate evidence-based treatment as well as the management of patient expectations in improving care for patients with chronic pain conditions, such a vulvodynia.
