## Highlights from DAY 2

Today we were all well rested and excited for another day of great scientific presentations and the opportunity to collaborate and discuss all things related to Vulvovaginal disease.

We started the day off with concurrent sessions that covered dermatoses and vaginitis. The great thing about the hybrid platform is that now you can see BOTH! If you want to view the session that you missed, you can view it on the virtual platform until December 31, 2022.

We had some great discussions happening at the electronic poster viewings and enjoyed seeing each other and discussing the day's topics over coffee.

The day continued with some additional concurrent sessions on oncology and microbiome.

# Highlights from DAY 2

We are grateful to our Gold Sponsor, Scynexis for their support of our event and their Lunch Symposium. We appreciate the information that was shared and the lunch that they provided!

Again, saving the important things for last, we had the opportunity to hear some great abstract presentations and want to thank all of our presenters for the great research and work that they do to help improve women's lives.

We finished the evening off with the highlight of the trip to Dublin. Our live attendees were treated to a tour of the infamous Book of Kells and then a fun filled evening with some great Irish entertainment.

We hope you enjoy some of the surprised faces that you see here, as the 'waiters and waitresses' suddenly broke into song and entertained us brilliantly

The evening continued with great food, more Irish entertainment and hopefully created some great memories.
