

# SCHEDULE

*International Vulvovaginal Disease Update*  
Trinity College - Dublin, Ireland  
Friday, July 15th and Saturday, July 16th, 2022

## *Vulvovaginal Disease Update*

### Friday, July 15th, 2022

- 8:45** Scientific goals and Introductions
- 9:00** Vulvar anatomy and its variants. The expert perspective
- 9:15** When “normal is normal” in social media times? The patient’s perspective
- 9:30** Pitfalls in normal vulvar histology
- 9:45** How to examine the vulva: ISSVD approach to clinical diagnosis
- 10:35** Vulvar symptoms: the first step of diagnosis
- 10:50** Usefulness of ISSVD Classifications in vulvology
- 11:05** Vulvar biopsy: when, how, why
- 11:20** After the diagnosis: therapeutic principles in dermatology
- 11:35** Vaginal examination and basic principles of wet mount
- 13:05** Pediatric vulvar disease
- 13:20** Pediatric vaginal disease: not all bacterial
- 13:35** Vulva in post-menopause: senescence or disease?
- 14:10** Post-menopause and vaginal health
- 14:25** Vulvar hygiene
- 14:40** To douche or not to douche?
- 15:25** Transgender care
- 15:25** Introduction to dermoscopy: Instruments and imaging
- 15:40** Recognizing lesions on varying skin tones
- 15:40** Genital “cosmetic surgery”
- 15:55** Benign non-melanocytic lesions
- 15:55** Hidradenitis suppurativa: avoid the risk, improve the treatment
- 16:25** High grade intraepithelial neoplasia and squamous cell carcinoma of the vulva
- 16:25** Vulvar disease and systemic conditions
- 16:40** Recurrent vulvovaginal herpes
- 16:40** Vulvar melanosis, melanocytic nevi, and melanoma

**SCHEDULE**  
*International Vulvovaginal Disease Update*  
**Trinity College - Dublin, Ireland**  
**Friday, July 15th and Saturday, July 16th, 2022**

## *Vulvovaginal Disease Update*

### **Saturday, July 16th, 2022**

- 8:30** HPV infection: from epidemiology to basic biology
- 8:45** HPV and vulvar diseases: from condyloma to invasive cancer
- 9:00** High grade intraepithelial neoplasia of the vagina and anal intraepithelial neoplasia
- 9:15** Lecture: HPV Vaccines and vulvovaginal diseases
- 9:50** Differentiated VIN: the not-HPV related pathway to vulvar cancer
- 10:05** Vulvar cancer: does therapy consider etiology?
- 10:55** Vulvar pigmented lesions: how to reassure?
- 11:10** Vulvar ulcers: when and where to biopsy?
- 11:25** Lichen simplex chronicus and other dermatoses
- 12:00** Lichen sclerosus: diagnosis, treatment and follow up
- 12:15** Lichen planus: vulvo-vaginal perspective
- 12:30** Sexuality and chronic vulvar disease
- 13:55** Classification and potential factors associated with persistent vulvar pain and vulvodynia
- 14:10** Sexological aspects of vulvar pain
- 14:25** Medical treatment of vulvodynia
- 15:00** Physical therapeutic options for vulvodynia
- 15:15** Surgery in vulvodynia: why to avoid, why to consider
- 16:05** Surgery for high grade squamous intraepithelial lesions (HSIL)
- 16:05** The perfect world: the microbioma
- 16:20** Candidiasis
- 16:20** Histology: problems with different techniques
- 16:55** Biopsy and wide local excision of the vulva
- 16:55** Bacterial vaginosis and trichomonas
- 17:10** Flaps and grafts for vulvovaginal conditions
- 17:10** Atrophic vaginitis: how diagnose and treat
- 17:25** Other forms of vaginitis
- 17:25** Mohs micrographic surgical techniques
